

# Chocolate Mug Cake

*This recipe is not my own. It was printed on the side of the mug that I received as a gift. Your mug may not have the recipe printed on it, but you can make this chocolate treat in a mug of your own. This "Mug Cake" takes only two minutes to bake and you do it in the microwave!*

## INGREDIENTS

One NON-wide-mouthed mug  
(with a maximum capacity of 12-ounces liquid)  
3 TBSP flour  
4 TBSP granulated sugar  
2 TBSP unsweetened cocoa powder  
a pinch of salt  
3 TBSP oil  
3 TBSP milk  
1 egg  
1/4 tsp pure vanilla extract  
3 TBSP semi-sweet chocolate chips

## DIRECTIONS

Add all the ingredients into the mug except the chocolate chips. Mix them together thoroughly until nice and smooth. Gently stir in the chocolate chips. Microwave on HIGH for 2 minutes. If the cake is not done, microwave for 10-second intervals until done.

ENJOY!
